Global e-cigarette market: a massive and promising market

Global market forecast to grow tremendously:

UK & USA are early penetrated markets with biggest market sizing. High speed growth trend remains for the rest of the markets.

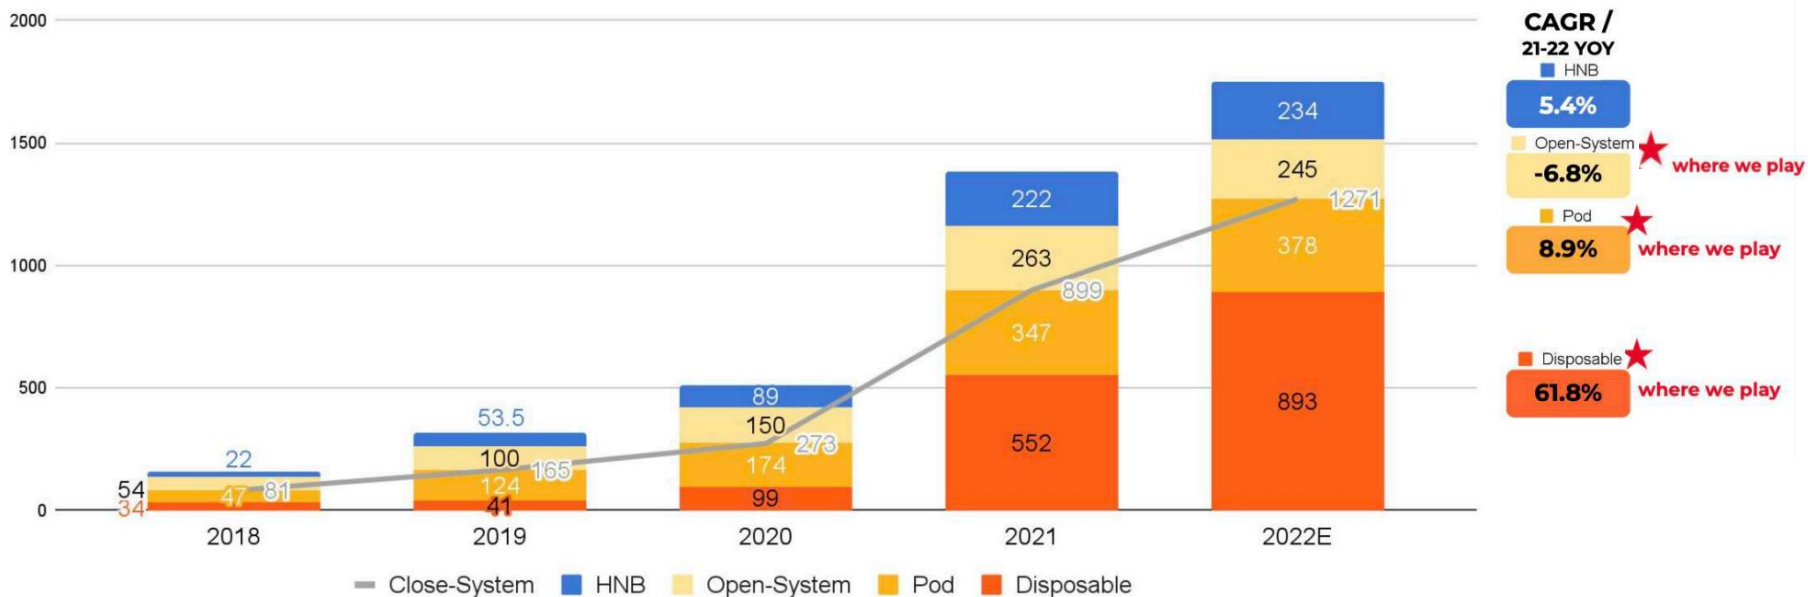

1. WE includes most of EU and partially Eastern Europe
2. Spain is included in LATAM

Where we play: pod and disposable, two growth drivers.

Within the vape market, Pod system and Disposable are the two sub-categories that fuel the overall category growth.
